# Event Creation Standard

## 1-Objective

Guarantee :

- Immediate readability
- A clear organization
- Effective coordination
- Traceability of deadlines

## 2- Event Name Structure

**Required format**

[TYPE] – Specific topic – (Responsible)

**Examples**

[DEADLINE] – Workshop 2 submitted

[MEETING] – Sprint Planning S3

[MILESTONE] – Backend MVP completed

## 3- Event types & color codes

| Type      | Usage                      | Couleur | Description              |
|-----------|----------------------------|---------|--------------------------|
| DEADLINE  | Official date of surrender | Red     | Non-negotiable           |
| MILESTONE | Major project milestone    | Green   | Key objective achieved   |
| MEETING   | Team meeting               | Blue    | Synchronization          |
| SPRINT    | Planned internal work      | Orange  | Production session       |
| REVIEW    | Relecture / Validation     | Purple  | Deliverable verification |

## **4- Mandatory content of an event**

Each event must include :

- Clear description
- Link to associated Drive document
- Identified person in charge
- Specific objective
- Agenda (if applicable)

## **5- Important rules**

- Never create an event without a type.
- Never use a vague title (“Meeting” is forbidden).
- Official deadlines should only be in red.

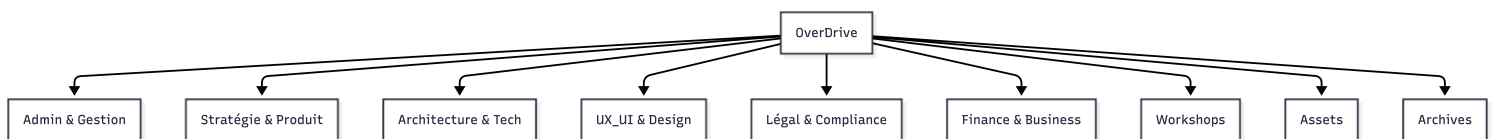

# File Creation Standard

## 1- Objective

Guarantee :

- A professional structure
- Clarity for the jury
- Scalability
- Seamless collaboration

## 2- Official tree structure

## 3- File naming standard

### Mandatory format

OD\_[Sujet]\_[Date].pdf

### Examples

OD\_Personas\_2026-02-10.pdf

OD\_Architecture\_2026-02-12.pdf

OD\_Costing\_2026-02-15.pdf

Never use:

- final\_final.pdf
- bon\_version.pdf
- new2.pdf

## 5- Allowed file types

| Usage              | Recommended format   |
|--------------------|----------------------|
| Jury deliverables  | PDF                  |
| Collaborative work | Google Docs / Sheets |
| Technical data     | .md / .pdf           |
| Architecture       | .pdf / .png          |
| Code               | GitHub uniquement    |
| Graphic assets     | .svg / .png          |

## 6- Standard for files

The files must:

- Be numbered (logical order)
- Have a clear name
- Never be duplicated
- Do not contain unnecessary files

## 7- Asset management (logos, images)

### Interdit
